

**§ 143-254.7. Appropriation and emergency power to combat Chronic Wasting Disease; report.**

(a) **Emergency Appropriation.** – If the Commission determines that an outbreak of Chronic Wasting Disease in the State constitutes a significant threat to deer and other cervid species, the Commission may declare a wildlife emergency. Upon declaration of the wildlife emergency, the Commission shall request needed additional funding for immediate investigation, containment, and eradication of the outbreak from the Contingency and Emergency Fund to the Council of State for approval following the process set forth in G.S. 143C-4-4(c). The approved funds will be allocated by the State Controller to a special fund called the Chronic Wasting Disease Emergency Response Fund (CWD Response Fund). Funds allocated to the CWD Response Fund are appropriated to the Wildlife Resources Commission for the purposes for which the funds are requested and approved. The Commission shall request any federal funds available to combat Chronic Wasting Disease in cervids, and any such funds obtained will be used to offset State funds appropriated under this section to the extent allowed by applicable law. The Commission will inform the Office of State Budget and Management of the amount of State funds offset by federal funds, and the Office of State Budget and Management shall direct the State Controller to transfer these funds from the CWD Response Fund to the Contingency and Emergency Fund upon receipt of the federal funds.

(b) **Report.** – No later than September 15 of each year in which the Commission receives State funds to combat, monitor, or contain an outbreak of Chronic Wasting Disease appropriated either under this section or in any other enactment of the General Assembly, the Director shall submit a report on the activities conducted with the funds during the prior fiscal year to the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources and the Fiscal Research Division.
