1. The Board may convey any of its real property, or any interest therein, for street and sidewalk purposes, or for a public thoroughfare to the State of North Carolina or any subdivision or agency thereof, and it may grant an easement in any such real property for water or sewer lines, public utility lines, conduits or pipes of any kind, either above, below or on the ground, or for any other purpose that said Board shall deem advisable, if, in the Board's opinion, such easement will not interfere with the proper use for school purposes of the property in which such easement is granted.

The proceeds of any sale of personal property, as authorized herein, may be applied to any purpose the Board may direct or authorize.

6. Any personal property, title to which is vested in the Board, may be exchanged for other personal property or be exchanged as part of the purchase price of other personal property by direction or authorization of the Board.

The fact that the land to be so acquired for a suitable site may lie adjacent to an existing public school site shall not be deemed an addition to said existing site if the purpose of its acquisition is to construct or erect an independent school, school building, or school facility, separate and apart from the school and school facility located on the previously existing site.

The Board may acquire title to or an easement in land for street purposes, as herein provided, for more than one means of ingress and egress, but not more than three such means, which shall be of a width necessary to comply with all State laws, rules and

9. Whenever it shall become necessary for the Board to proceed, as provided in G.
