17 "(b1) Data. – In measuring rates of unemployment and per capita income, the
18 Secretary shall use the latest available data published by a State or federal agency

21 certified by the State ~~Planning-Budget~~ Officer."

22 **SECTION 5.(f)** G.S. 105-129.3A(a) reads as rewritten:

23 "(a) Development Zone Defined. – A development zone is an area comprised of
24 one or more contiguous census tracts, census block groups, or both in the most recent
25 federal decennial census that meets all of the following conditions:

26 (1) Every census tract and census block group in the zone is located in
27 whole or in part within the primary corporate limits of a city with a
28 population of more than 5,000 according to the most recent annual
29 population estimates certified by the State ~~Planning-Budget~~ Officer.

30 (2) It has a population of 1,000 or more according to the most recent

4 **SECTION 5.(g)** G.S. 105-164.44F(b) reads as rewritten:

5 "(b) Share of Cities Incorporated on or After January 1, 2001. – The share of a
6 city incorporated on or after January 1, 2001, is its per capita share of the amount to be
7 distributed to all cities incorporated on or after this date. This amount is the proportion
8 of the total to be distributed under this section that is the same as the proportion of the
9 population of cities incorporated on or after January 1, 2001, compared to the
10 population of all cities. In making the distribution under this subsection, the Secretary
11 must use the most recent annual population estimates certified to the Secretary by the
12 State ~~Planning-Budget~~ Officer."

13 **SECTION 5.(h)** G.S. 105-187.19(b) reads as rewritten:

14 "(b) Each quarter, the Secretary shall credit five percent (5%) of the net tax
15 proceeds to the Solid Waste Management Trust Fund and shall credit twenty-seven
16 percent (27%) of the net tax proceeds to the Scrap Tire Disposal Account. The Secretary
17 shall distribute the remaining sixty-eight percent (68%) of the net tax proceeds among
18 the counties on a per capita basis according to the most recent annual population
19 estimates certified to the Secretary by the State ~~Planning-Budget~~ Officer."

20 **SECTION 5.(i)** G.S. 105-187.24 reads as rewritten:

21 "**§ 105-187.24. Use of tax proceeds.**

22 The Secretary shall distribute the taxes collected under this Article, less the
23 Department of Revenue's allowance for administrative expenses, in accordance with this
24 section. The Secretary may retain the Department's cost of collection, not to exceed two
25 hundred twenty-five thousand dollars (\$225,000) a year, as reimbursement to the
26 Department.

27 Each quarter, the Secretary shall credit eight percent (8%) of the net tax proceeds to
28 the Solid Waste Management Trust Fund and shall credit twenty percent (20%) of the
29 net tax proceeds to the White Goods Management Account. The Secretary shall
30 distribute the remaining seventy-two percent (72%) of the net tax proceeds among the
31 counties on a per capita basis according to the most recent annual population estimates
32 certified to the Secretary by the State ~~Planning-Budget~~ Officer. The Department shall
33 not distribute the tax proceeds to a county when notified not to do so by the Department
34 of Environment and Natural Resources under G.S. 130A-309.87. If a county is not
35 entitled to a distribution, the proceeds allocated for that county will be credited to the
36 White Goods Management Account.

37 A county may use funds distributed to it under this section only as provided in G.S.
38 130A-309.82. A county that receives funds under this section and that has an interlocal
39 agreement with another unit of local government under which the other unit provides
40 for the disposal of solid waste for the county must transfer the amount received under
41 this section to that other unit. A unit to which funds are transferred is subject to the
42 same restrictions on use of the funds as the county."

43 **SECTION 5.(j)** Effective July 1, 2003, G.S. 105-472(b) reads as rewritten:

1 "(b) Distribution Between Counties and Cities. – The Secretary shall divide the
2 amount allocated to each taxing county among the county and its municipalities in
3 accordance with the method determined by the county. The board of county
4 commissioners shall, by resolution, choose one of the following methods of distribution:

5 (1) Per Capita Method. – The net proceeds of the tax collected in a taxing
6 county shall be distributed to that county and to the municipalities in
7 the county on a per capita basis according to the total population of the
8 taxing county, plus the total population of the municipalities in the
9 county. In the case of a municipality located in more than one county,
10 only that part of its population living in the taxing county is considered
11 its "total population". In order to make the distribution, the Secretary
12 shall determine a per capita figure by dividing the amount allocated to
13 each taxing county by the total population of that county plus the total
14 population of all municipalities in the county. The Secretary shall then
15 multiply this per capita figure by the population of the taxing county
16 and by the population of each municipality in the county; each
17 respective product shall be the amount to be distributed to the county
18 and to each municipality in the county. To determine the population of
19 each county and each municipality, the Secretary shall use the most
20 recent annual estimate of population certified by the State Planning
21 Budget Officer.

22 (2) Ad Valorem Method. – The net proceeds of the tax collected in a
23 taxing county shall be distributed to that county and the municipalities
24 in the county in proportion to the total amount of ad valorem taxes
25 levied by each on property having a tax situs in the taxing county
26 during the fiscal year next preceding the distribution. For purposes of
27 this section, the amount of the ad valorem taxes levied by a county or
28 municipality includes ad valorem taxes levied by the county or
29 municipality in behalf of a taxing district and collected by the county
30 or municipality. In addition, the amount of taxes levied by a county
31 includes ad valorem taxes levied by a merged school administrative
32 unit described in G.S. 115C-513 in the part of the unit located in the
33 county. In computing the amount of tax proceeds to be distributed to
34 each county and municipality, the amount of any ad valorem taxes
35 levied but not substantially collected shall be ignored. Each county and
36 municipality receiving a distribution of the proceeds of the tax levied
37 under this Article shall in turn immediately share the proceeds with
38 each district in behalf of which the county or municipality levied ad
39 valorem taxes in the proportion that the district levy bears to the total
40 levy of the county or municipality. Any county or municipality that
41 fails to provide the Department of Revenue with information
42 concerning ad valorem taxes levied by it adequate to permit a timely
43 determination of its appropriate share of tax proceeds collected under
44 this Article may be excluded by the Secretary from each monthly

1 distribution with respect to which the information was not provided in
2 a timely manner, and those tax proceeds shall then be distributed only
3 to the remaining counties or municipalities, as appropriate. For the
4 purpose of computing the distribution of the tax under this subsection
5 to any county and the municipalities located in the county for any
6 month with respect to which the property valuation of a public service
7 company is the subject of an appeal and the Department of Revenue is
8 restrained by law from certifying the valuation to the county and the
9 municipalities in the county, the Department shall use the last property
10 valuation of the public service company that has been certified.

11 The board of county commissioners in each taxing county shall, by resolution
12 adopted during the month of April of each year, determine which of the two foregoing
13 methods of distribution shall be in effect in the county during the next succeeding fiscal
14 year. In order for the resolution to be effective, a certified copy of it must be delivered
15 to the Secretary in Raleigh within 15 calendar days after its adoption. If the board fails
16 to adopt a resolution choosing a method of distribution not then in effect in the county,
17 or if a certified copy of the resolution is not timely delivered to the Secretary, the
18 method of distribution then in effect in the county shall continue in effect for the
19 following fiscal year. The method of distribution in effect on the first of July of each
20 fiscal year shall apply to every distribution made during that fiscal year."

21 **SECTION 5.(k)** G.S. 136-202(c) reads as rewritten:

22 "(c) The Department, the metropolitan planning organizations, and the
23 Department of Environment and Natural Resources shall jointly evaluate and adjust the
24 regions defined in each regional travel demand model at least once every five years and
25 no later than October 1 of the year following each decennial federal census. The
26 evaluation and adjustment shall be based on decennial census data and the most recent
27 populations estimates certified by the State ~~Planning-Budget~~ Officer. The adjustment of
28 these boundaries shall reflect current and projected patterns of population, employment,
29 travel, congestion, commuting, and public transportation use and the effects of these
30 patterns on air quality."

31 **SECTION 5.(l)** G.S. 143-215.107A(d) reads as rewritten:

32 "(d) Additional Counties. – The Commission may require that motor vehicle
33 emissions inspections be performed in counties in addition to those set out in subsection
34 (c) of this section. In determining whether to require that motor vehicle emissions
35 inspections be performed in a county, the Commission may consider the population of,
36 and distribution of population in, the county; the projected change in population of, and
37 distribution of population in, the county; the number of vehicles registered in the
38 county; the projected change in the number of vehicles registered in the county; vehicle
39 miles traveled in the county; the projected change in vehicle miles traveled in the
40 county; current and projected commuting patterns in the county; and the current and
41 projected impact of these factors on attainment of air quality standards in the county and
42 in areas outside the county. The Commission may not require that motor vehicle
43 emissions inspections be performed in any county with a population of less than 40,000
44 based on the most recent population estimates prepared by the State ~~Planning-Budget~~

1 Officer. The Commission may not require that motor vehicle emissions inspections be
2 performed in any county in which the number of vehicle miles traveled per day is less
3 than 900,000, based on the most recent estimates prepared by the Department of
4 Transportation. In order to disapprove a rule that requires that motor vehicle emissions
5 inspections be performed in one or more additional counties, a bill introduced pursuant
6 to G.S. 150B-21.3(b) must amend subsection (c) of this section to add one or more other
7 counties in which the total population and vehicle miles traveled per day equal or
8 exceed the total population and vehicle miles traveled in the county or counties listed in
9 the rule that the bill would disapprove."

10 **SECTION 5.(m)** G.S. 160A-536(c) reads as rewritten:

11 "(c) Urban Area Revitalization Defined. – As used in this section, the term "urban
12 area revitalization projects" includes the provision within an urban area of any service
13 or facility that may be provided in a downtown area as a downtown revitalization
14 project under subdivision (a)(2) and subsection (b) of this section. As used in this
15 section, the term "urban area" means an area that (i) is located within a city whose
16 population exceeds 150,000 according to the most recent annual population statistics
17 certified by the State ~~Planning~~Budget Officer and (ii) meets one or more of the
18 following conditions:

- 19 (1) It is the central business district of the city.
- 20 (2) It consists primarily of existing or redeveloping concentrations of
21 industrial, retail, wholesale, office, or significant
22 employment-generating uses, or any combination of these uses.
- 23 (3) It is located in or along a major transportation corridor and does not
24 include any residential parcels that are not, at their closest point, within
25 150 feet of the major transportation corridor right-of-way or any
26 nonresidentially zoned parcels that are not, at their closest point,
27 within 1,500 feet of the major transportation corridor right-of-way.
- 28 (4) It has as its center and focus a major concentration of public or
29 institutional uses, such as airports, seaports, colleges or universities,
30 hospitals and health care facilities, or governmental facilities."

31 **SECTION 5.(n)** G.S. 162A-6(a)(14d) reads as rewritten:

32 "(a) Each authority created hereunder shall be deemed to be a public
33 instrumentality exercising public and essential governmental functions to provide for
34 the public health and welfare, and each authority is authorized and empowered:

35 ...

- 36 (14d) To require the owners of developed property on which there are
37 situated one or more residential dwelling units or commercial
38 establishments located within the jurisdiction of the authority and
39 within a reasonable distance of any waterline or sewer collection line
40 owned, leased as lessee, or operated by the authority to connect the
41 property with the waterline, sewer connection line, or both and fix
42 charges for the connections. The power granted by this subdivision
43 may be exercised by an authority only to the extent that the service,
44 whether water, sewer, or a combination thereof, to be provided by the

1 authority is not then being provided to the improved property by any
2 other political subdivision or by a public utility regulated by the North
3 Carolina Utilities Commission pursuant to Chapter 62 of the General
4 Statutes. In the case of improved property that would qualify for the
5 issuance of a building permit for the construction of one or more
6 residential dwelling units or commercial establishments and where the
7 authority has installed water or sewer lines or a combination thereof
8 directly available to the property, the authority may require payment of
9 a periodic availability charge, not to exceed the minimum periodic
10 service charge for properties that are connected. This subdivision
11 applies only to a water and sewer authority whose membership
12 includes part or all of a county that has a population of at least 40,000
13 according to the most recent annual population estimates certified by
14 the State ~~Planning~~Budget Officer.

15 ..."

6 Article continues if the individual is receiving contributions to repay
7 loans or cover a deficit or is making expenditures to satisfy obligations
8 from an election already held. Special definitions of 'candidate' and
9 'candidate campaign committee' that apply only in Part 1A of this

14 **"§ 115C-238.29E. Charter school operation.**

15 (a) A charter school that is approved by the State shall be a public school within
16 the local school administrative unit in which it is located. It shall be accountable to the
17 local board of education if it applied for and received preliminary approval from that

21 compliance with applicable laws and the provisions of their charters, except that any of
22 these charter schools may agree to be accountable to the local board of the school
23 administrative unit in which the charter school is located rather than to the State Board.

24 (b) A charter school shall be operated by a private nonprofit corporation that
25 shall have received federal tax-exempt status no later than 24 months following final
26 approval of the ~~application~~ application unless a local board of education applied for and
27 was granted a charter for the conversion of an existing public school or for the creation

29 board of education or by a board of directors appointed by the local board of education.

30 (c) A charter school shall operate under the written charter signed by the entity to

44 which the charter school is located. If a charter school leases space from a sectarian

1 organization, the charter school classes and students shall be physically separated from
2 any parochial students, and there shall be no religious artifacts, symbols, iconography,
3 or materials on display in the charter school's entrance, classrooms, or hallways.
4 Furthermore, if a charter school leases space from a sectarian organization, the charter
5 school shall not use the name of that organization in the name of the charter school.

6 At the request of the charter school, the local board of education of the local school
7 administrative unit in which the charter school will be located shall lease any available
8 building or land to the charter school unless the board demonstrates that the lease is not
9 economically or practically feasible or that the local board does not have adequate
10 classroom space to meet its enrollment needs. Notwithstanding any other law, a local
11 board of education may provide a school facility to a charter school free of charge;
12 however, the charter school is responsible for the maintenance of and insurance for the
13 school facility.

24 ensure that the school is meeting the expected academic, financial, and governance
25 standards.

26 A material revision of the provisions of a charter application shall be made only
27 upon the approval of the State Board of Education.

28 It shall not be considered a material revision of a charter application and shall not
29 require the prior approval of the State Board for a charter school to increase its
30 enrollment during the charter school's second year of operation and annually thereafter
31 (i) by up to ten percent (10%) of the school's previous year's enrollment or (ii) in
32 accordance with planned growth as authorized in the charter. Other enrollment growth
33 shall be considered a material revision of the charter application, and the State Board
34 may approve such additional enrollment growth of greater than ten percent (10%) only
35 if the State Board finds that:

- 36 (1) The actual enrollment of the charter school is within ten percent (10%)
37 of its maximum authorized enrollment;
- 38 (2) The charter school has commitments for ninety percent (90%) of the
39 requested maximum growth;
- 40 (3) The board of education of the local school administrative unit in which

2 (5) The charter school meets generally accepted standards of fiscal
3 management; and
4 (6) It is otherwise appropriate to approve the enrollment growth."

5 **SECTION 42.(b)** G.S. 115C-238.29F(e)(1) reads as rewritten:

10 in the school; at least seventy-five percent (75%) of these teachers in

42 education and the board of county commissioners, but if no such agreement is reached,
43 these funds shall be remitted to the school finance officer by the county finance officer
44 in monthly installments sufficient to meet its lawful expenditures from the county

1 appropriation until the county appropriation to the local school administrative unit is
2 exhausted. Each installment shall be paid not later than 10 days after the close of each
