Referred to:

A BILL TO BE ENTITLED

1
2 AN ACT TO APPROPRIATE FUNDS TO THE E-NC AUTHORITY TO INCREASE
3 THE AVAILABILITY OF INTERNET CONNECTIVITY IN UNDERSERVED
4 AREAS OF THE STATE THROUGH INCENTIVE GRANTS, TO PROVIDE
5 ADDITIONAL FUNDING FOR GENERAL OPERATIONS, TO EXPAND THE
6 FUNDING FOR THE E-NC BUSINESS AND TECHNOLOGY TELECENTERS
7 PROGRAM, AND TO PROVIDE INCENTIVES TO E-COMMUNITIES, LOCAL
8 E-GOVERNMENT UTILIZATION PROGRAM PARTICIPANTS, AND
9 E-COMMERCE INITIATIVES.

10 Whereas, the e-NC Authority is successfully pursuing its mandated goals of
11 increasing access to affordable high-speed Internet and creating 21st century jobs
12 through technology-based economic development in the rural areas and the distressed
13 urban areas of the State; and

14 Whereas, the e-NC Business and Technology Telecenters (BTTs) serve as
15 catalysts to technology-based economic development in some of North Carolina's most
16 distressed regions by helping to grow existing small businesses, bringing new kinds of
17 businesses into rural communities and regions, stimulating and supporting
18 entrepreneurship, and creating 21st century jobs; and

19 Whereas, the e-NC Authority works successfully with local governments,
20 educational and health institutions, and business by providing technical assistance to
21 strengthen their technology capacities and service their communities by making
22 available to the citizens technology services and resources, training, and public access to
23 computers and the Internet; and

24 Whereas, the e-NC Authority supports citizens and communities through
25 research, tracking of broadband Internet resources, and by providing information about
26 such infrastructure through GIS mapping on the e-NC Web site. This allows citizens

1 and businesses to view service offerings of telecommunications companies. E-NC
2 answers broadband service inquiries about broadband access from citizens and
3 businesses, economic development commissions, local and State agencies, and attempts
4 to enable the inquirer to receive a timely response to their concerns; and

5 Whereas, the work of the e-NC Authority has leveraged more than two
6 hundred million dollars (\$200,000,000) for investment into NC communities to carry
7 out deployment of connectivity in working with private and public sector partners as
8 well as more than eight million dollars (\$8,000,000) leveraged with its other major
9 programs such as the Business and Technology Telecenters. These figures do not
10 include the direct job creation through the Business and Technology Telecenters in Tier
11 1 & 2 areas, where more than 900 jobs were created between 2001 and 2005; Now,
12 therefore,
