The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-433.6 reads as rewritten:

"§ 143-433.6. Legislative Findings.

(a) The General Assembly finds and determines that the Tax Reform Act of 1984 established a federal volume limitation upon the aggregate amount of "private activity bonds" that may be issued by each state; that, pursuant to Section 103(n) of the Internal Revenue Code of 1954, as amended, a previous Governor of North Carolina issued Executive Order 113 proclaiming a formula for allocating the federal volume limitation for North Carolina; that on October 22, 1986, the Tax Reform Act of 1986, hereinafter referred to as the "Tax Reform Act", was enacted; that the Tax Reform Act (i) establishes a new unified limitation for private activity bonds on a state by state basis, (ii) establishes a new definition of the types of private activity bonds to be included under those new limitations, (iii) establishes a new low-income housing credit to induce the construction of and the improvement of housing for low-income people, and (iv) limits the aggregate use of this low-income housing credit on a state by state basis; that the Tax Reform Act provides for federal formulas for the allocation of these "state by state" resources, and also provides for states which cannot use the federal formula for allocation to set allocation procedures and formulas which are more appropriate for the individual states; that the Tax Reform Act gives authority for the legislature of each state to formulate and execute plans for allocation; and that Section 146 of the Internal Revenue Code of 1986, as amended, and Section 42 of the Internal Revenue Code of 1986, as amended, will require continued inquiry and study in the ways in which North Carolina can best and most fairly manage and utilize resources provided therein.

6 amount of qualified public educational facility bonds that may be issued on a state-by-
7 state-basis, (iii) provide that each state may allocate the annual aggregate limitation for
8 any calendar year in such manner as each state determines appropriate, and (iv) provide
9 for an elective carryforward by each state of the unused annual aggregate limitation; and
10 that subsections (a)(13) and (k) will require continued inquiry and study in the ways in
11 which North Carolina can best and most fairly manage and utilize the resource provided
