GENERAL ASSEMBLY OF NORTH CAROLINA SESSION 2009

H HOUSE DRH80050-LD-21A (02/03)

Short Title:	Appalachian Mountains Preservation Act.	(Public)
Sponsors:	Representative Harrison.	
Referred to:		

1		A BILL TO BE ENTITLED
2	AN ACT TO	PRESERVE THE APPALACHIAN MOUNTAINS BY PROHIBITING
3	ELECTRIC	PUBLIC UTILITIES THAT OPERATE COAL-FIRED GENERATING
4	UNITS LOC	ATED IN NORTH CAROLINA FROM PURCHASING OR USING COAL
5	THAT IS EX	TRACTED USING MOUNTAINTOP REMOVAL COAL MINING.
6	The General Asse	embly of North Carolina enacts:
7		TION 1. Chapter 62 of the General Statutes is amended by adding a new
8	Article to read:	
9		"Article 5B.
10		"Appalachian Mountains Preservation Act.
11	" <u>§ 62-109. Short</u>	title.
12	This Article s	hall be known as the Appalachian Mountains Preservation Act.
13	" <u>§ 62-109.1. Fin</u>	dings and purpose.
14	(a) The C	Seneral Assembly finds:
15	<u>(1)</u>	North Carolina is home to the Appalachian Mountains, and the State's
16		citizens and wildlife share in common this critical economic, environmental,
17		and cultural resource with every state containing or bordering these ancient
18		mountains.
19	<u>(2)</u>	From Maine to Alabama, these ancient mountains have shaped the economy,
20		environment, and unique cultural heritage of the areas located along the
21		Appalachian Mountains.
22	<u>(3)</u>	Coal mining has played a central role in shaping the economy, environment,
23		and unique cultural heritage of the Appalachian coalfields.
24	<u>(4)</u>	Coal mining, whether conducted on the earth's surface or underground, poses
25		significant risks to human health, local communities, the environment, real
26		property, personal property, and wildlife resources.
27	<u>(5)</u>	By transforming the majestic mountains of the Appalachian coalfields into
28		flattened, eerily lifeless moonscapes, mountaintop removal coal mining, of
29		all the methods of extracting coal, poses the greatest risks to human health,
30		local communities, the environment, real property, personal property, and
31		wildlife resources.
32	<u>(6)</u>	As of 2009, mountaintop removal coal mining has permanently erased more
33		than 470 peaks from the Appalachian skyline, buried or polluted more than
34		1,200 miles of pristine headwater streams, and swept away more than 800
35		square miles of one of America's most diverse and valuable ecosystems.

1	(7)	
1	<u>(7)</u>	Left unchecked, mountaintop removal coal mining will continue to
2		irreversibly destroy the people, communities, cultural heritage, and
3		environment of the Appalachian coalfields, as well as our wildlife resources.
4	<u>(8)</u>	The impacts of mountaintop removal coal mining are unacceptable to the
5		<u>citizens of this State.</u>
6	<u>(9)</u>	By consuming coal extracted by mountaintop removal coal mining to
7		provide power to our homes, businesses, and economy, North Carolina is
8		responsible, in part, for the permanent destruction to date of the Appalachian
9		coalfields and the wildlife resources of the Appalachian Mountains.
10	<u>(10)</u>	Sixty-one percent (61%) of the electricity used to provide power to North
11		Carolina's homes, businesses, and economy is generated by coal-fired
12		generating units located in North Carolina.
13	(11)	-
14		is extracted by mountaintop removal coal mining in the Appalachian
15		coalfields.
16	(12)	
17	<u>(12)</u>	mountaintop removal coal mining, we have an obligation to eliminate or
18		reduce the devastating social and environmental impacts of this mining in
19		the Appalachian Mountains.
20	(13)	
21	(13)	Carolina's citizens, our wildlife resources, and our interest in preserving the
22		Appalachian Mountains for current and future generations.
23	(b) It is	the purpose of this Article to promote the general welfare of North Carolina's
24		nment, and wildlife by prohibiting electric public utilities that operate coal-fired
25		s located in North Carolina from purchasing or using coal that is extracted by
26		moval coal mining.
20

- /

- (3) A statement that the coal purchased was not, nor will be, extracted by mountaintop removal coal mining.
- (b) On the fifteenth day of each month, each electric public utility that operates a coal-fired generating unit located in North Carolina shall file a report with the Commission that itemizes the monthly and accumulated costs incurred by purchasing or using coal extracted by a method other than mountaintop removal coal mining, using the most recent data available.
- (c) As part of its annual reporting on cost of fuels and fuel-related costs, each electric public utility that operates a coal-fired generating unit located in North Carolina shall submit to the Commission copies of all of the following:
 - (1) Each sworn statement required under subsection (a) of this section.
 - (2) Each contract to purchase coal entered into during the reporting period.
- (d) Each electric public utility that operates a coal-fired generating unit located in North Carolina may file with the Commission an application to determine the rate that would include all reasonable and prudent incremental fuel costs incurred by purchasing or using coal extracted by a method other than mountaintop removal coal mining.
- (e) The Commission shall, within 20 calendar days after receiving a written request, provide a list of each public utility that operates a coal-fired generating unit located in North Carolina, indicating whether each utility is in compliance with this section based upon the most recent information available.
- (f) If an electric public utility considers certain information required to be included in a report under this section confidential and entitled to protection from public disclosure, the utility may designate that information as confidential and file it with the Commission under seal. Documents marked as confidential will be treated as required under applicable Commission rules, procedures, and orders dealing with filings made under seal and with nondisclosure agreements.

"§ 62-109.4. Penalties.

- (a) Any electric public utility that is in violation of G.S. 62-109.2 shall be prohibited from recovering the cost of fuel under G.S. 62-133.10 and all other fuel-related costs for the coal obtained in violation of G.S. 62-109.2.
- (b) If an electric public utility that operates a coal-fired generating unit located in North Carolina fails to file the monthly or annual reports required under G.S. 62-109.3, the Commission shall issue an order canceling or suspending the utility's certificate of convenience and necessity 30 days after the date of service of the order. In the event the report is filed during this 30-day period, the order of cancellation or suspension shall be void."
- **SECTION 2.** Article 7 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"§ 62-133.10. Cost recovery for incremental cost of certain coal mining methods.

The Commission shall, upon petition of an electric public utility, approve an annual rider to the electric public utility's rates to recover all reasonable and prudent incremental costs incurred by each investor-owned public utility that operates a coal-fired generating unit located in North Carolina for purchasing or using coal extracted by a method other than the mountaintop removal coal mining prohibited by rules adopted in accordance with G.S. 62-109.2."

SECTION 3. This act becomes effective January 1, 2010, and applies to contracts to purchase coal entered into on or after that date.
