GENERAL ASSEMBLY OF NORTH CAROLINA Session 2009 Legislative Actuarial Note HEALTH BENEFITS

BILL NUMBER:House Bill 1707 (First Edition)SHORT TITLE:SHP/ Age-Out Dependents; Tobacco Use Testing.SPONSOR(S):Representatives Holliman, Tarleton, Jackson, and Gill

SYSTEM OR PROGRAM AFFECTED: State Health Plan for Teachers and State Employees (Plan).

FUNDS AFFECTED: State General Fund, State Highway Fund, other State employer receipts; premium payments for dependents of active employees and retired employees of State agencies and universities, local public schools and local community colleges; premium payments for coverages selected by eligible former employees; premium payments for coverages selected by firefighters, rescue squad workers, members of the National Guard, and certain authorized local governments.

BILL SUMMARY:

<u>Section 1</u>: Effective June 1, 2010 and repealed July 1, 2011, the proposed bill removes the full-time student requirement for dependent children to remain eligible for benefit coverage under the Plan through the end of the month following their 26th birthday. The bill applies only to dependent children who were enrolled in the Plan as of May 1, 2010, and excludes certain dependent children from eligible coverage under the Plan if an otherwise eligible dependent child is eligible for other employer-sponsored health benefit coverage

<u>Section 2</u>: Requires the Plan's Executive Administrator to consult with the General Assembly's Committee on Employee and Hospital Medical Benefits before implementing a plan to verify tobacco use by plan members.

EFFECTIVE DATE: Section 1 of the act is effective June 1, 2010 and is repealed effective July 1, 2011. The remainder of the act is effective when it becomes law.

ESTIMATED IMPACT ON STATE:

<u>Aon Consulting</u>, the consulting actuary for the State Health Plan for Teachers and State Employees, estimates that Section 1 of the bill's requirements will increase the Plan's total claims cost by a range of \$1.2 million to \$3.4 million for the 2010-2011 fiscal year.

<u>Hartman & Associates</u>, the consulting actuary for the General Assembly's Fiscal Research Division, estimates that Section 1 of the bill's requirements will increase the Plan's total claims cost by a range of \$2.1 million to \$3.6 million for the 2010-2011 fiscal year.

The additional cost impact of the requirements in Section 1 of the bill, projected by either consulting actuary, would be expected to impact total claims growth by approximately fourteen tenths of one percent (0.14%) for the 2010-2011 fiscal year based on the highest estimate of additional cost (i.e., \$3.6 million). **ASSUMPTIONS AND METHODOLOGY:** The actuarial analyses used by each respective consulting actuary are on file with the Fiscal Research Division. Copies of each respective consulting actuary's analysis, including assumptions, are also attached to the original copy of this Legislative Actuarial note.

Summary Information and Data about the Plan

The Plan administers health benefit coverage for active employees from employing units of State agencies and departments, universities, local public schools, and local community colleges. Eligible retired employees of authorized employing units may also access health benefit coverage under the Plan. Eligible dependents of active and retired employees are authorized to participate in the Plan provided they meet certain requirements. Employees and retired employees of selected local governments may also participate in the Plan under certain conditions. Members of fire, rescue squads, and the National Guard may also obtain coverage under the Plan provided they meet certain eligibility criteria.

As of July 1, 2009, the State finances the Plan on a self-funded basis and administers benefit coverage under a Preferred Provider Option (PPO) arrangement. The Plan's receipts are derived through premium contributions, investment earnings and other receipts. Premiums for health benefit coverage are paid by (1) employing agencies for active employees, (2) the Retiree Health Benefit Fund for retired employees, and (3) employees and retirees who elect dependent coverage. Total *revised* requirements for the Plan are estimated to be \$2.55 billion for FY 2009-10 and \$2.74 billion for FY 2010-11. The Plan's PPO benefit design includes two alternative benefit levels listed below:

- 1) The "Basic" 70/30 plan that offers higher out-of pocket requirements in return for lower fully contributory dependent premiums; and
- 2) The "Standard" 80/20 plan.

The Basic and Standard plans offer coverage to employees and retired employees on a noncontributory basis. Coverage for dependents under both plans is offered on a fully contributory basis.

Financial Condition

Revised Financial Projection 2009-11 Biennium – The following summarizes a revised financial projection conducted by the Plan's consulting actuary, Aon Consulting, for the 2009-11biennium. The information is provided by fiscal year based on year-to-date financial experience (through March 2010) and other updated factors.

For the fiscal year beginning July 1, 2009, the Plan began its operations with a beginning cash balance of \$189.9 million. Receipts for the year are projected to be \$2.41 billion from net premium collections, \$74.4 million from Medicare Part D subsidies, and \$3.4 million from investment earnings for a total of approximately \$2.49 billion in receipt income for the year. Projected disbursements from the Plan are expected to be \$2.39 billion in net claim-payment expenses and \$164.1 million in administration and claims-processing expenses for projected total expenses of nearly \$2.55 billion for FY 2009-10. The Plan's net operating loss is projected to be approximately \$66.3 million for the fiscal year, assuming a 9% annual claims growth trend and an annual premium increase of 8.9% effective July 1, 2009.

For the fiscal year beginning July 1, 2010, the Plan is projected to begin its operations with a beginning cash balance of \$123.6 million. Receipts for the year are projected to be \$2.68 billion from net premium collections, \$56.1 million from Medicare Part D subsidies, and \$2.7 million from investment earnings for a total of approximately \$2.73 billion in receipt income for the year. Projected disbursements from the Plan are expected to be \$2.55 billion in net claim-payment expenses and \$191.7 million in administration and claims-processing expenses for projected total expenses of nearly \$2.74 billion for FY 2010-11. The Plan's net operating loss is projected to be approximately \$7.1 million for the fiscal year, assuming a 9% annual claims growth trend and an annual premium increase of 8.9% effective July 1, 2010.

Based on the revised financial projection (May 2010), the Plan's estimated ending cash balance on June 30, 2011 is projected to be \$116.5 million. This amount is approximately \$75.7 million <u>less</u> than the originally projected (April 2009) ending cash balance of \$192.2 million.

Original Financial Projection 2009-11 Biennium (April 2009) – Session Law 2009-16 (Senate Bill 287) appropriated funds from various sources, authorized annual premium rate increases, made various benefit and provider related changes to achieve financial savings, and directed other various changes to the Plan. The enacted law also appropriated the sum of \$250 million from the Savings Reserve Account ("Rainy Day Fund") of the General Fund for the 2008-09 fiscal year. The following summarizes the original financial projection by conducted by the Plan's consulting actuary, Aon Consulting, for the 2009-11 biennium. The following summarizes the original financial projection by fiscal year for the 2009-11 biennium and assumes the changes enacted in Session Law 2009-16 (Senate Bill 287).

For the fiscal year beginning July 1, 2009, the Plan was projected to begin its operations with a beginning cash balance of \$146.9 million. Receipts for the year were projected to be \$2.4 billion from net premium collections, \$56.3 million from Medicare Part D subsidies, and \$8.0 million from investment earnings for a total of approximately \$2.5 billion in receipt income for the year. Projected disbursements from the Plan were expected to be \$2.3 billion in net claim-payment expenses and \$185.6 million in administration and claims-processing expenses for projected total expenses of nearly \$2.5 billion for FY 2009-10. The Plan's net operating income was projected to be approximately \$14.8 million for the fiscal year, assuming a 9% annual claims growth trend and an annual premium increase of 8.9% effective July 1, 2009.

For the fiscal year beginning July 1, 2010, the Plan was projected to begin its operations with a beginning cash balance of \$161.6 million. Receipts for the year were projected to be \$2.7 billion from net premium collections, \$50.4 million from Medicare Part D subsidies, and \$8.8 million from investment earnings for a total of approximately \$2.7 billion in receipt income for the year. Projected disbursements from the Plan were expected to be \$2.5 billion in net claim-payment expenses and \$191.7 million in administration and claims-processing expenses for projected total expenses of nearly \$2.7 billion for FY 2010-11. The Plan's net operating income was projected to be approximately \$30.6 million for the fiscal year, assuming a 9% annual claims growth trend and an annual premium increase of 8.9% effective July 1, 2010.

Other Information

Historically, the Plan has applied a premium increase in October of the first fiscal year of a biennium. However, the annual premium increases authorized in Session Law 2009-16 (Senate Bill 287) changes that methodology to an annual increase at the beginning of each fiscal year of the 2009-11 biennium.

Additional assumptions include Medicare benefit "carve-outs," cost containment strategies including prior approval for certain medical services, utilization of the "Blue Options" provider network, case and disease management for selected medical conditions, mental health case management, coordination of benefits with other payers, a prescription drug benefit manager with manufacturer rebates from formularies, and fraud detection, and other authorized actions by the Executive Administrator and Board of Trustees to manage the Plan to maintain and improve the Plan's operation and financial condition where possible. Claim cost trends are expected to increase at a rate of 9% annually according to the Plan's consulting actuary. Investment earnings are based upon a 4.5% return on available cash balances.
