8 The General Assembly of North Carolina enacts:

9 **SECTION 1.(a)** The Department of Health and Human Services shall conduct a
10 study to identify options for modification, enhancements, and other changes to graduate medical
11 education payments to hospitals, as well as any other reimbursements, to incentivize health care
12 providers in rural areas of the State to (i) participate in medical education programs exposing
13 residents to rural areas, programs, and populations and (ii) support medical education and
14 medical residency programs in a manner that addresses the health needs in the State. In
15 conducting the study, the Department may collaborate with the North Carolina Area Health
16 Education Centers Program. The study shall examine at least all of the following:

- 17 (1) Changes in Medicaid graduate medical education reimbursement and funding
18 sources after the 1115 Medicaid waiver submitted by the Department to the

20 changes vary from the current model, the rationale for the changes, and the
21 specific incentives the new structure creates for urban and rural hospitals.
22 (2) Options to coordinate North Carolina Area Health Education Centers funding
23 to create incentives for attracting residents and students to rural areas of the
24 State, with the goal of ensuring the maximum benefit of the funding.
25 (3) Any other issues the Department deems appropriate.

26 **SECTION 1.(b)** The Department shall report its findings to the Joint Legislative

29 specific, actionable steps that can be implemented, along with estimated costs and a timetable for
30 implementation.

31 **SECTION 2.(a)** The Department of Health and Human Services shall conduct a
32 study to (i) identify rural hospitals that desire to be designated as new teaching hospitals by the
33 Centers for Medicare and Medicaid Services; (ii) determine the technical assistance those
34 hospitals require in order to be designated as new teaching hospitals by the Centers for Medicare
35 and Medicaid Services; and (iii) calculate the expected cost for those hospitals to be designated

1 as new teaching hospitals by the Centers for Medicare and Medicaid Services. In conducting this
2 study, the Department shall engage external professionals with experience and expertise in the
3 establishment of new teaching programs, expanding existing programs, and maximizing the
4 effectiveness of funding for medical education, particularly in rural areas. The study shall
5 examine at least all of the following:

- 6 (1) Expansion of graduate medical education payments to outpatient costs and
7 services.
- 8 (2) Modifications to cost-finding and reimbursement formulas that incentivize

- 10 (3) Options in physician reimbursement to incentivize participation, including a

- 12 (4) Any other issues the Department deems appropriate.
