S.B. 308
PRINCIPAL CLERK
D

SENATE BILL DRS45135-LRa-20C

Short Title:	Save the Internet Act.	(Public)
Sponsors:	Senators Chaudhuri and Woodard (Primary Sponsors).	
Referred to:		

1	A BILL TO BE ENTITLED						
2	AN ACT RESTORING AN OPEN INTERNET IN NORTH CAROLINA AND						
3	APPROPRIATING FUNDS FOR STATEWIDE BROADBAND ACCESS.						
4	Whereas, the free and open exchange of information, secured by a free and open						
5	Internet, has never been more essential to modern social, commercial, and civic life; and						
6	Whereas, North Carolinians expect and rely on the traditional principle that Internet						
7	service providers will not pick and choose what content they can see; rather, North Carolinians						
8	expect that their Internet service providers will be "neutral" and abide by principles commonly						
9	referred to as "Internet neutrality"; and						
10	Whereas, guided by principles of Internet neutrality, the information society and our						
11	economy have flourished; and						
12	Whereas, North Carolinians rely on a free and open Internet to meet the world, to						
13	learn, to entertain, to make informed personal choices about their families, and to make public						
14	choices about our society; and						
15	Whereas, businesses rely on a free and open Internet to enter new markets, to gain						
16	new insights, to recruit, to compete, and to grow; few changes in human communications have						
17	revolutionized commerce so quickly; and						
18	Whereas, educational institutions rely on a free and open Internet to provide North						
19	Carolinians with world-class educational opportunities; and						
20	Whereas, the loss of Internet neutrality principles threatens to increase the costs of						
21	accessing and sharing information for people and for businesses alike; and						
22	Whereas, the Federal Communications Commission (FCC) has argued that violations						
23	of Internet neutrality principles may violate state competition and fair trade practices laws, which						
24	require the vigilance and attention of state governments; and						
25	Whereas, significant broadband and mobile Internet services providers have made						
26	public pledges to adhere to certain Internet neutrality principles in the wake of changes by federal						
27	regulators; Now, therefore, The Concrel Assembly of North Coroline energies						
28 29	The General Assembly of North Carolina enacts:						
29 30	SECTION 1. Title. – This act shall be known and may be cited as the "Save the Internet Act."						
31							
32	SECTION 2. Net Neutrality. – Chapter 75 of the General Statutes is amended by adding a new Article to read:						
33	"Article 2B.						
33 34	"Restore Net Neutrality.						
35	"§ 75-70. Restore net neutrality.						
36	(a) <u>Definitions. – The following definitions apply in this section:</u>						

General Assemb	ly Of North Carolina	Session 2019
<u>(1)</u>	Blocking. – Preventing an action or command by an	n end user over the Internet.
$\overline{(2)}$	Broadband Internet access service A mass-ma	rket retail service by wire,
	radio, or electronic means that provides the capab	ility to transmit data to and
	receive data from all or substantially all Interne	
	capabilities that are incidental to and enab	
	communications service, but excluding dial-up In	
	term includes any service that the Federal Commun	
	to be providing a functional equivalent or the	
	requirements of this section.	
<u>(3)</u>	End user or user. – Any person who uses a broadb	and Internet access service.
$\overline{(4)}$	Internet service provider or provider. – Any per-	
	customers with access to the Internet.	<u>.</u>
<u>(5)</u>	Paid prioritization. – The management of a broad	band provider's network to
	directly or indirectly favor some traffic over othe	-
	the use of techniques such as traffic shapin	
	reservation, or other forms of preferential traffic	
	exchange for consideration, whether monetary or o	-
	or (ii) to benefit an entity affiliated with the broad	
	does not include the provision of tiered Internet ac	-
	a retail end user.	<u> </u>
(6)	Practice inconsistent with net neutrality principles.	– When an Internet service
	provider engages in blocking, throttling, or paid p	
<u>(7)</u>	Reasonable network management. – A practice th	
<u></u>	network management justification, but does not	
	practices. A network management practice is reason	
	for and tailored to achieving a legitimate netw	÷ •
	taking into account the particular network archited	
	broadband Internet access service.	
<u>(8)</u>	Throttling. – Regulating the rate at which service	or application processing is
	conducted over the Internet.	· · · ·
(b) Findin	ngs and Intent. – The General Assembly finds that N	orth Carolinians rely on the
	tool for everyday life. Further, it is in the best interest	
	exchange of information secured by a free and oper	
-	s the public policy of this State as provided by this A	-
