Whereas, local health departments must have the infrastructure and capacity to perform communicable disease control and surveillance activities in order to prevent the spread of disease and protect the public health; and

Whereas, in addition to COVID-19, North Carolina's local health departments are required to report and respond to over eighty other communicable diseases each year; and

Whereas, in 2019, North Carolina ranked 46th in per person state public health funding; and

Whereas, North Carolina's public health system needs new, recurring funding to
address the challenges posed by COVID-19, including vaccine distribution, while also protecting
North Carolina's public health and its economy in the long term; Now, therefore,

33 The General Assembly of North Carolina enacts:

SECTION 1. It is the intent of the General Assembly to protect the public health by 35 providing additional State funds to address increased demands associated with communicable

General Assembly Of North Carolina

1 and emerging infectious diseases. To that end, there is appropriated from the General Fund to the 2 Department of Health and Human Services, Division of Public Health, the sum of thirty-six 3 million dollars (\$36,000,000) in recurring funds for the 2021-2022 fiscal year and the sum of 4 thirty-six million dollars (\$36,000,000) in recurring funds for the 2022-2023 fiscal year to be 5 allocated to local health departments to expand local infrastructure for activities associated with 6 the surveillance, detection, control, and prevention of communicable diseases. In allocating these 7 funds to local health departments under this section, for each year of the 2021-2023 fiscal 8 biennium, the Division of Public Health shall divide eighteen million dollars (\$18,000,000) 9 equally among the local health departments. The Division of Public Health shall allocate the 10 remaining eighteen million dollars (\$18,000,000) to local health departments based upon the 11 percentage of the State population served by each of the local health departments. Local health departments shall use all funds allocated under this section to supplement and not supplant 12 13 existing funds for the surveillance, detection, control, and prevention of communicable diseases. 14 **SECTION 2.** This act becomes effective July 1, 2021.
