The General Assembly of North Carolina enacts:

SECTION 1. The Department of Agriculture and Consumer Services will provide additional training, public outreach, and staffing to the North Carolina Forest Service Law Enforcement Section for reducing intentional timber theft and act as public liaison for landowner's property rights. These officers shall be stationed proportionally and geographically across the State, and training will include supporting local law enforcement with investigations in arson, public and private natural resources theft or loss, malicious trespass, and other crimes. These officers will advocate for crime victims, offer prosecutorial assistance where appropriate, serve as a consulting resource for landowners in property disputes, and provide interdepartmental and cross-agency support for emergency services, public safety, and other regulatory agencies at the request of the landowners or local government. These officers will engage with and increase outreach, education, and communication to the general public, landowners, businesses, and governmental units on the services and resources available through Enforcement and other Forestry programs. The Forest Service Law Enforcement Section will develop the implementation plan, time line, and performance measures for these officers and report progress to the Joint Agricultural and Forestry Commission before the 2018 General Assembly convenes.
